

WEDDING MUSIC SAMPLE REPERTOIRE LISTS

We can perform all the popular wedding hymns, and our musicians have an extensive repertoire of Irish traditional music, classical music, popular music and Irish folk songs. The sample repertoire lists below are by no means exhaustive, and simply provide examples of the music we have included in our recent wedding performances. If there is a particular piece that you would like us to perform, but is not listed here, you can be confident that we will know it, and if not, we will learn it for you! Remember too that you can also have an original piece of music composed for your wedding ceremony - ask about our innovative 'Tunes of Note' service!
